

KVC Hospitals is a private, nonprofit organization that provides innovative, compassionate psychiatric treatment to children, adolescents and adults. Each year, we help thousands of people struggling with depression, anxiety, trauma, substance abuse, and suicidal thoughts by offering inpatient and residential psychiatric treatment. Using the latest neuroscience, we help people develop healthier brains and resilience.

Over the last year, we helped people in many ways:

2,869

youth & adults treated at KVC Hospitals

14,496

Learning Lab lessons completed to teach children about their emotions and brains

100%

of hospital and residential clinicians trained in biofeedback

403

therapeutic virtual reality sessions conducted

8,603

individual therapy sessions provided to youth
